<b>GO FOR AN ELECTRIC LIFT WITH A NEW OR EXISTING CABINET!</b> If you have an existing maxi-air lifter cabinet you may be able to upgrade to the new electric lifter. There are two ways of doing this, either you can buy the electric lifter and fit it yourself or we can call out and install it for you. We would need you to check the size of the lifter you have by measuring the length of the opening in the top of your cabinet it would need to be between 61.5- 62.5cm's. Prices for both options are opposite, certain areas of the country may not be covered by this service. Please either contact us or refer to the brochure for more information.
